Personal Statement: Please indicate why you believe you would be a valuable addition to the Commission, Committee or Board for which you are applying. If more space is needed, please attach a separate sheet.

I believe I would be a valuable addition to the Commission because my life’s purpose is to serve individuals with disabilities. I started Wilmot Union High School’s Transition Program in 2018 after identifying that we were in need of improving the outcomes for our individuals with disabilities as they transition from high school to adulthood. I believe it is essential that as a community we do everything in our power to provide opportunities to increase independence for individuals with disabilities at home, in the community, and within an employable setting. Moreover, I believe this takes a united community to collaborative foster opportunities for individuals and their families as they transition from high school to adulthood, and then supporting these individuals through their lives. We need to ensure that all stakeholders are aware of their opportunities, regardless of their race, community of residence, or parental involvement. I believe I would be a great collaborative addition to this Commission because I have dedicated my life to serving individuals with disabilities. I am connected throughout the state and midwest as I have presented the Wilmot Next Steps Transition Program at several conferences. I support managing the special education budget and believe in fiscal responsibility where we invest in effective practices and programs. I believe I would be an excellent addition to the Commission because I could provide perspective from special education teacher, special education coordinator, and brother in law of a family member with autism. I would love the opportunity to serve all of Kenosha County in this way.
