## Fox River Park Scheduled to Partially Reopen Saturday

Kenosha, WI – (March 11, 2016) – Kenosha County Executive Jim Kreuser has announced that Fox River Park will partially reopen on Saturday, March 12, 2016.

Kreuser said he “appreciates the public’s patience during the logging project and is pleased that Kenosha County is able to partially reopen Fox River Park with the warm temperatures and increased demand to visit the Parks.”

Fox River’s 27-hole disc golf course and hiking paths will be open to the public. Visitors will have access to a majority of Fox River Park and including parking in lots #2 and #3. Visitors are advised to use caution on all trails within Fox River Park as areas remain covered with debris and branches from the ash tree removal project.

Fox River Park’s boat launch, river lot, and parking lot #1 will remain closed due to unsafe piles of logs and brush within these areas. All unsafe areas will be marked and barricaded to inform the public of prohibited areas within the park.

Cleanup efforts will be a continued effort and priority by county staff. The next phase of this project will concentrate on the cleaning of small debris, stumps, and turf damage that was caused by the logging operations. As part of the comprehensive reforestation plan, Kenosha County Parks has already planted over 2,000 trees over the past five years. Over the next three years, Kenosha County will plant an additional 500 trees within Petrifying Springs Park and Golf Course, Fox River Park, and Brighton Dale Links Golf Course.

For more information, please contact the Kenosha County Parks at (262) 857-1869.
