## Public Works / Facilities Committee Golf Division Status Report for June 2020

- **Operations** - We reopened golf operation on April 24th with rigid COVID-19 restrictions in place. Consistent with PGA/USGA and State sanctioned recommendations, we were able to begin incremental reduction of the restrictions on May 1<sup>st</sup> and were able to safely provide limited golf cart use and takeout food & beverage. Each of our courses have been extremely busy when the weather permits and staff is working hard to ensure our operations provide a fun, safe guest experience. We've cancelled our spring events, but have been able to safely accommodate League play – though participation number have been down.
- **Equipment Demo/Club Fitting Events:** We have demo days (10 AM to 2 PM) scheduled for:
  - June 6<sup>th</sup> Tour Edge
  - June 13<sup>th</sup> Taylor Made
- **Staffing** - Employee hiring went very well this spring and now it is just a matter of retention and training. We are currently fully staffed and have a great crew.
- **Projects** - Either in process or on tap to start are:
  - Pets Cart Path Replacement – The weather cooperated just enough to allow the Highway Division to complete paving. We will continue to perform the finishing touches to include fine-grading and seeding of the new path's edges.
  - Drainage Work – Additional drainage work continues to be performed at each course.
