Benefits of Dog Parks

Off-leash dog parks have proven to provide many benefits to dogs, their families, and their communities.

- Dog parks promote positive socialization, healthy outdoor activities, and natural resource appreciation in both animals and humans.
- Dogs that receive regular exercise and are well-socialized are better canine citizens in our community. Typically, they are less destructive and calmer at home, and are more comfortable around people in general.
- Dog parks help to encourage responsible pet ownership and the enforcement of dog-control laws.
- Dog parks can provide a safe environment for elderly pet owners and individuals with disabilities to exercise their dogs.
