## Public Works / Facilities Committee Golf Division Status Report for January 2021

- The “Special Holiday Golf Clearance Sale” at Petrifying Springs GC was successful in moving some late season merchandise and gift cards. Petrifying Springs GC was open for several days in December adding rounds to the final total. This was a nice finish to a tremendous season.
- We are looking forward to a productive off season; booking group events, restocking the golf shop, tuning up the equipment, freshening up the clubhouses and getting ready for 2021. We are performing market research into area golf rates and plan on developing rate recommendations for next month’s meeting.
- Indoor Golf Simulator – The installation of this equipment was completed at the Petrifying Springs Clubhouse using our Flight Scope Launch monitor. We started a Virtual Winter Golf League with 22 players. This league will run through the end of March. About 1/3 of all the open tee times are taken up by this league. We will be keeping league standings and there is a closest to the pin contest for the players each week. We are still experimenting in how to best leverage this technology-during the off-season. Initial patron feedback is very positive.
- Projects either in process or on tap to start are:
  - **Refresh areas in the Petrifying Springs Clubhouse** – We are deep cleaning all necessary areas and replacing some equipment in preparation for the upcoming season.
  - **Refresh areas in the Brighton Dale Links Clubhouse** – We are deep cleaning and painting all necessary areas. Refreshing the bathrooms with new sinks, faucets and vanities. The carpet will be replaced. All the furniture and woodwork will be refreshed with Old English polish.
  - **Ordering Supplies, Equipment and Merchandise**- We are currently in the purchasing process for all our capital items, fertilizers, supplies and merchandise for the golf shop.
  - **Refurbish the Pumphouse at Petrifying Springs**- The pumphouse at Pets has been cleaned and updated with a more efficient irrigation pump system. This is a welcome addition that will serve Pets very well for many years to come.
