## Public Works/Facilities Committee Golf Division Status Report for June 2021

- **Operations** - All of our courses have been extremely busy when the weather is nice and the staff is still working hard to ensure our operations provide a fun, safe guest experience. League play began the last week of April/first week of May. We will serve over 600 league players weekly for both courses this season.
- **Equipment Demo/Club Fitting Events:** We have demo days (10 AM to 2 PM) scheduled for:
  - June 6<sup>th</sup> Taylor Made
  - June 19<sup>th</sup> Brighton Dale Links Mega Golf Club Sale.
- **Staffing** - Employee hiring went very well this spring and now it is just a matter of retention and training. We are currently still looking for one or two long term maintenance staff members and we have assembled a great crew.
- **Projects** - Either in process or on tap to start are:
  - **Drainage Work** – Additional drainage work continues to be performed at each course.
  - **Pets Cart Path Replacement** - We continue to work on the smoothing, planting and fertilizing necessary to restore the edges of the new paved paths. This work will continue throughout the season and into this fall.
  - **BDL Fairway Restoration** – We continue our work to restore the fairway areas that were compromised last season. We over-seeded the challenged areas with 2,000 pounds of specially formulated grass seed and it is beginning to fill in nicely. Consistent warm weather and moisture should expedite this restoration.
