

12.20-4 A-4 AGRICULTURAL LAND HOLDING DISTRICT

(a) Primary purpose and characteristics

The Kenosha County Board of Supervisors recognizes that the premature piecemeal conversion of farmland to urban use has led to increasing public concern over such conversion. This concern centers on the sprawling of urban population, the increasing cost of providing urban services, and the loss of agricultural lands as a valuable natural resource. Therefore, the Agricultural Land Holding District is intended to maintain and generally preserve for a limited time period those lands where urban expansion is proposed to take place on the adopted regional land use plan or other local land use plans that refine and detail the regional land use plan. It is intended that the status of all areas placed in this district be reviewed by the Kenosha County Planning, Development & Extension Education Committee no less frequently than every two years to determine whether, in light of current development trends, there should be a transfer of all or any part of such areas to some other appropriate use district. Any such review will consider the need for permitting other uses on such land, the nature of the use or uses to be permitted, and the cost and availability of the public services and facilities which will be necessitated by such new use or uses. (11/5/84)

It is recognized that it is neither possible nor practicable to list all of the principal and accessory uses that are compatible with those listed below and therefore, it is intended that the following list of principal and accessory uses only be illustrative. Any individual aggrieved by a failure to list a particular principal or accessory use in this subsection shall have the right to file a petition with the Kenosha County Department of Planning and Development pursuant to section 12.35 of this ordinance for a determination as to the similarity of the intended use with the principal and accessory uses listed below.
