

# Mover's Fees

If you do not elect to conduct your own move or contract with your own moving company the Sheriff's Department will then contract with an approved moving company. Below are the only two moving companies the Sheriff's Department currently has authorized for conducting an eviction. The Sheriff's Department has been limited to those two companies because of their availability and their willingness to move and store the property as required by State Statute.

**The fees are required as part of their business and cannot be negotiated by the Sheriff's Department. The Sheriff's Department can only determine if the fees are fair.**
