

## When will my new tax key parcel numbers be assigned as a result of my recorded land division document?

The [Kenosha County Land Information Office](#) is responsible for creating the new active parcel numbers in the land information database reflected on the public Property Inquiry website. When a land division takes place, the existing parent parcel number is made inactive and set to expire at the end of the calendar year during which it was subdivided. New parcel numbers are typically issued 2-3 weeks after the land division document is recorded with the Register of Deeds. If you recently recorded a land division document and need to know what new tax key parcel number(s) will be assigned to the child properties, the quickest way to become aware of the new tax key parcel number assignments is by monitoring the parcel number of the parcel being subdivided on the Kenosha County Property Inquiry website. This database is updated nightly, so checking the database once a day will suffice.

Begin by navigating to the Kenosha County Property Inquiry located at the web address shown below:

<http://propertyinfo.kenoshacounty.org/>

The screenshot shows the Kenosha County Property Information Web Portal search interface. The page title is "Kenosha County Property Information Web Portal" and it includes a welcome message and a search instruction. A notice (ATTN) states: "For City of Kenosha Current Year Tax information, see the City's website, Kenosha.org. Town of Salem/Village of Silver Lake merged into the Village of Salem Lakes; parcel numbers begin with 70-4-120-XXX-XXXX." The search interface is titled "Search By: Parcel" and includes a "Reset Search | Hide Search" link. The search criteria are organized into several sections: "Property Type" (Real Estate - Personal Property), "Parcel Numbers" (Parcel #, All Parcel #), "Property Address" (House #, Street Name, Prefix Dir., Type, Suffix Dir.), "Public Land Survey" (Plat Type, Plat Desc., Section, Township, Range), "Owner" (Last Name, First Name, Owner Status, All Owner Statuses), and "Other" (Municipality). There are checkboxes for "Include: Current Properties" and "Historical Properties". A "Search For Properties" button is located at the bottom of the search criteria. The page is powered by GCS and includes a footer with "Kenosha County Support" and an email address.

Search for the existing parent parcel number (tax key identification number) that is being subdivided.
