

Transportation Information

There are many ways to get around to the appointments and errands you have, and a few things to think about as you plan your trip. Most of these providers will accept cash for services, and some may accept payment by credit or debit card, so be sure to call the provider to check ahead of time. You will be seeing the words “ambulatory and Wheelchair accessible” to describe who can ride. Ambulatory means the person can walk by themselves or with a walker or cane, to get to the vehicle. Wheelchair accessible, means a vehicle can take someone who is seated in a wheelchair for the ride.

ADRC's Mobility Manager

The Mobility Manager helps people understand their transportation options and can help with:

- One on one, or group travel training
- Route planning
- Care-A-Van applications
- Complaints or concerns
- Advocacy for Non-emergency Medical Transportation

If you'd like to connect with the Mobility Manager, you can contact the ADRC, Monday-Friday 8:00am-5:00pm, 262-605-6646.

Where are you going?

If you need a medical ride, and have private insurance, you may want to call your company to see if your ride is covered with your policy. If you have Family Care, Partnership or PACE, call your care manager to arrange transportation. Anyone with Medicaid (a Forward Health card, or BadgerCare), will need to call VEYO at: 1-866-907-1493, or online www.wi.ridewithveyo.com. If you have Medicaid and someone can drive you, they may be able to be reimbursed for their trip.

If you need a ride for any other reason like to the store, or medical appointments that are not covered by any insurance or program, then here are some other ways to ride there:

Scheduling Tips for a smoother ride

1. Schedule and confirm your ride as soon as you know you need one.
2. Know your appointment time, date, and address of end point when calling.
3. Schedule your appointment no less than 2 workdays ahead. Scheduling as soon as you know you need a ride will help you get the ride at the time you need one. Inform them if someone will be riding with you and any equipment you may need to bring, such as cane, wheelchair, etc.
4. Know your transportation provider's rules. For example: Wait times, fares/charges, no show/cancellation rules, or additional riders.

Initial Ride to your destination

1. Be ready when the driver arrives.
2. Wait near the door.
3. Have exact change if a payment is required at the time of your ride.

Return Ride back to your home

1. Know the name and phone number of your transportation provider.
2. Call when you are finished with all appointments (physician's exam, lab work, x-ray, shopping, movie, etc.)
3. Inform the dispatcher where you will be waiting and wait in that spot.
